TOWN WARRANT

STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Newport qualified to vote in Town affairs:

You are hereby notified and warned to meet at the Town Hall in said Town of Newport, on the second Tuesday of March next, at nine o'clock in the forenoon, to act upon the following subjects:

Article 1. To bring in your ballots upon the question as to whether the amendment proposed by the Convention to revise the Constitution shall be approved.

Article 2. To elect a Selectman for a term of three years; to elect a Town Treasurer and a Town Clerk for the ensuing year.

Article 3. To elect a member of the Trust Fund Commission for a term of three years; one Water and Sewer Commissioner for a term of three years; one Cemetery Commissioner for a term of three years; a Collector of Taxes; Road Agent, and all other Officers and Agents necessary for the Town business.

Article 4. To hear the reports of the Selectmen, Town Treasurer, Auditors and other Officers heretofore chosen and pass and vote relating thereto.

Article 5. To raise and appropriate such sums of money as may be necessary for the payment of Town charges, including the Town Officer's salaries and expenses, expenses of the Municipal Court and maintenance of the Town Hall, election and registration expenses.

Article 6. To see if the Town will instruct the Selectmen to appoint a Police force in Newport, designate the hours of service, and to see what sum of money the Town will vote to raise and appropriate for the support of the Fire Department, and to see if the Town will vote to raise and appropriate the sum of \$400, twenty-five per cent. of this amount being contributed in addition by the State Forestry Department, for the control and extermination of the White Pine Blister in the Town.

Article 7. To see if the Town will vote to raise \$685.00 for maintenance of the State Aid Road, a like amount being contributed by the State Highway Department, for this purpose.

Article 8. To see if the Town will vote to raise and appropriate \$5,014.00 for the maintenance of the Trunk Line roads, a like amount being contributed by the State Highway Department for this purpose.

Article 9. To raise and appropriate such sums of money as may be necessary for the maintenance and repair of highways and bridges.

Article 10. To see what sum of money the Town will vote to raise and appropriate for lighting the streets of Newport.

Article 11. To see if the Town will vote to raise and appropriate the sum of \$150 to defray the expenses of Memorial Day, and pay the same to the Quartermaster of Fred Smythe Post No. 10, G. A. R.

Article 12. To see what sum the Town will vote to raise and appropriate for Parks and Playgrounds, including a payment of \$325 to the Newport Cadet Band, providing the band gives a series of open air concerts during the summer season; and for flooding the Common for skating purposes.

Article 13. To see what sum of money the Town will vote to raise and appropriate for the maintenance of the Sewer system for the ensuing year.

Article 14. To see if the Town will vote to authorize the Selectmen and Town Treasurer to borrow money on the notes of the Town in anticipation of taxes.

Article 15. To see if the Town will vote to allow a discount on taxes paid prior to June 15, and Sept. 1, fix the amount of such discount and pass any vote relating thereto.

Article 16. To see what sum of money the Town will raise and appropriate for the maintenance of the Public Health Nurse for the ensuing year and pass any vote relating thereto.

Article 17. To raise and appropriate such sums of money as may be necessary for the payment of the Town debt, and the interest thereon for the year ensuing and pass any vote relating thereto.

Article 18. To see if the Town will vote to make any appropriations for the construction and repair of sidewalks and pass any vote relating thereto.

Article 19. To see if the Town will vote to ask for State Aid in connection with its appropriation for permanent improvements of highways.

Article 20. To see if the Town will vote to raise and appropriate \$500 for the benefit of the Carrie F. Wright Hospital, and pay the same over to the Treasurer of said Hospital; also give said hospital the use of the Town Hall for two evenings during the year.

Article 21. To see if the Town will authorize the Cemetery Commissioners to lease a part of the land belonging to the Town adjacent to Pine Grove Cemetery and pass any vote relating thereto.

Article 22. To see what action the Town will take relative to the purchase of a public playground; raise and appropriate money therefor; and pass any vote relating thereto.

Article 23. To see if the Town will vote to extend the Newport Electric Light system from the Frank Witkus residence, up East Mountain Road, to Broadview Heights, and on High St., Short St. and Hill St., raise and appropriate money for the same and pass any vote relating thereto.

Article 24. To see if the Town will vote to install a Central Heating Plant for the purpose of heating the Town Hall, Fire Station, and School Building, raise and appropriate money for the same and pass any vote relating thereto.

Article 25. To see if the Town will vote to build a gymnasium, raise and appropriate money for this purpose and pass any vote relating thereto.

Article 26. To see what action the voters will take in regard to the improvement of the Fire Alarm system and the equipment of said Fire Department, and to raise and appropriate such sums of money as may be necessary to carry any vote in relation thereto into effect.

Article 27. To see if the Town will vote to raise and appropriate \$1,200 for the maintenance of cemeteries for the ensuing year.

Article 28. To see if the Town will vote to exempt from taxation for a term of ten years, the machinery and stock in trade of the Sugar River Mfg. Co.; also any additional land and buildings and contents for manufacturing purposes, which may be added or acquired within two years. Said exemption to conform to Section 11, Chapter 55 of the Public Statutes.

Article 29. To see if the Town will vote to exempt from taxation for a term of ten years any buildings, machinery and stock in trade of a manufacturing business to be estab-

lished by Frank F. Witkus and others. Said exemption to conform to Section 11, Chapter 55 of the Public Statutes.

Article 30. To see if the Town will vote to adopt Chapter 127 of the Public Statutes entitled "an Act for the Inspection and Sale of Milk" and any amendments thereto and take any action thereon.

Article 31. To see if the Town will recommend to the Board of Health that it pass an ordinance requiring all persons holding a license from the Newport Health Officer, to sell milk or cream, to subject their cows to the tuberculin test as said Board of Health may direct.

Article 32. To see if the Town will vote to give free use of the Town Hall to the American Legion three nights during the year, the dates to be determined by officials of said Legion.

Article 33. To see if the Town will vote to purchase land and build a building for storing the Town tools, raise and appropriate money for the same and pass any vote relating thereto.

Article 34. To transact any other business that may legally come before said meeting.

Given under our hands and seals at Newport this 26th day of February 1923.

(L. S.) ERNEST A. ROBINSON,

(L. S.) FRED E. NEWCOMB,

(L. S.) FRANK A. ROGERS,

Selectmen of Newport.

A true Copy of Town Warrant.

Attest:

ERNEST A. ROBINSON,

FRED E. NEWCOMB,

FRANK A. ROGERS,

Selectmen of Newport.

Main. yr. ending Jan. 31, 1923	2,752.73	8,390.78
Net income for year		\$4,048.52

NEW CONSTRUCTION

Service pipes have been laid during the year to twenty additional houses; also a six-inch water-main of some two hundred and seventy feet with one gate and hydrant on South Street, at a cost of \$556.00.

GILMAN POND

The completion and grading of the sluiceway from the new dam has been completed and made permanent at a cost of \$183, making the total cost of this work \$546. This new dam has resulted in a material conservation of water resulting the past season in our having a plentiful supply for do-

mestic and fire purposes, when other towns in this locality have been materially restricted.

Considerable labor has been put in during the year in cutting and burning brush and otherwise cleaning up about the shore of the pond to the expressed satisfaction and approval of the agent of the State Board of Health.

The iron bridge at the gate house has been painted and replanked at a cost of a little upwards of \$100.

Respectfully submitted,

T. L. BARKER,

P. A. JOHNSON,

D. S. ROLLINS,

Water Commissioners.

S. E. OSBORNE, Supt.

February 1, 1923

REPORT OF CEMETERY COMMISSIONERS

To the Citizens of Newport:

The Cemetery Commissioners beg to submit the following report for the fiscal year ending January 31, 1923.

May to Sept. Money Paid Out	1,381.25
	<hr/>
Balance	\$1,191.39

Respectfully submitted,

L. D. KEMPTON, Overseer of Poor.

REPORT OF HEALTH OFFICER

To the Citizens of Newport:

During the past year, your Health Officer is pleased to report that there were less contagious diseases than during any similar period during the past fifteen years. This is certainly a source of satisfaction because when the people are free from the more serious diseases it is evident that the health and well-being of the inhabitants are at its best.

This is due, in part, to the more efficient functioning of the different departments for health protection, both in local and state matters.

The several divisions of health protection are now mostly under the direct supervision of officers in their distinctive calling and are able to render the maximum service by eliminating many wasteful methods used in the past.

The public health nurse is one of the effective factors in the health protection of our town as she is ever watchful for danger signals in our people. This is especially true among the school children. The nurse is constantly on the watch and sends home any child that has indications of sickness, thus taking from the midst of the children a potential spreader of disease germs.

The nurse is ready at any time, to respond to any call for her services to assist in cases of sickness and also to give help and instruction along health lines to those who need it.

A considerable expense is entailed in the sending to Concord of patients to be treated at the state clinic for those afflicted with syphilis and kindred diseases. This is an important work as it tends to clear up the most dreaded scourge

that undermines the health of a people.

The N. H. Tuberculosis Association is doing valiant work in combatting consumption. This association is supported by public donations and deserves great credit for the noteworthy work it has done. Its financial condition is such, now, that it is able to greatly enlarge its field and holds clinics in small towns.

A tubercular clinic was held in Newport in November and another will be held in March. This is open to all for examination and advice without charge. A fine feature of this work is that there is now employed a County nurse for this work alone, whose duty it is to watch all cases that have come under observation at the clinic.

The sanitary condition of a people's food supply is always a determining factor in maintaining good health.

Milk is the one perfect food. It contains all the elements necessary for the health and growth of mankind. Being as it is a perfect food it has one drawback. It is most susceptible to take up any infection or contamination with which it comes in contact.

Yearly the authorities are endeavoring to throw around the milk supply the protection it should have. We have for some time had the milk examined for cleanliness and to see that it contained the standard amount of solids and butter fat.

This still left the matter of tubercular milk entirely unhampered to flow into our towns and cities. To us, this is the most dangerous condition that could exist, tubercular milk.

To protect us in this, the Farm Bureau is having tested for tuberculosis all milk cows in Sullivan County. To this date, eighty percent of the cows supplying milk to Newport have been tested and those found as re-actors have been done away with. To clear up this matter of obtaining pure milk, it is proposed that we pass an article at town meeting, making it a law that none but milk from tubercular tested cows could

be sold in Newport. The same to be covered by a license issued by the Health Officer, annually, and that those holding the license be subject to such rules and regulations as the Health Officer and advisory Board of Selectmen deem proper to impose.

The enforcing of the law relative to the connecting of houses with the sewer system has been one of the principal endeavors of the health officer during the past year. Very many of the houses have made this necessary improvement and during the coming year we hope to have the work entirely completed.

Respectfully submitted,

JOHN R. KELLY, Health Officer.

AUDITORS' REPORT

We, the undersigned, Auditors of the Town of Newport, New Hampshire, hereby certify that we have examined the accounts of the Selectmen, Town Treasurer, Town Clerk, Water Commissioners, Sewer Commissioners, Cemetery Commissioners, Trustees of Trust Funds, and the Municipal Court, for the fiscal year ending January 31, 1923, and find them correctly cast and properly vouched, and showing a balance of cash in the hands of the Town Treasurer of two thousand, seven hundred ninety-four dollars and seventy-two cents (\$2,794.72), and in the hands of the Cemetery Commissioners of fifty-six dollars and thirty-three cents (\$56.33).

We find the Selectmen have drawn orders for
the payment of the following bonds:

3% Water Bonds, Nos. 463 and 464 for \$100 each	\$200.00
3% Sewer Bonds, Nos. 6 and 8 for \$100 each	200.00
4% Highway Bond No. 668	500.00
4% Sewer Bond No. 675	500.00
4% Bridge Bonds, Nos. 654, 655 and 656 for \$500 each	1,500.00
4% Refunding Bonds, Series A, Nos. 564 to 569, both inclusive, for \$500	3,000.00
Total	<hr/> \$5,900.00

Also orders for interest coupons to total amount of nine thousand, seven hundred and sixty dollars and fifty cents

(\$9,760.50), and we certify that the above mentioned bonds and coupons were destroyed by burning in the presence of two of the Selectmen; viz, Ernest A. Robinson and Fred E. Newcomb and Town Treasurer George E. Lewis.

Respectfully submitted,

R. T. MARTIN,
P. A. JOHNSON,
H. D. ANGELL,
Auditors.

Newport, N. H., February 27, 1923.

REPORT OF FIRE DEPARTMENT

In a year remarkable for heavy fire losses, Newport has again been fortunate in getting through with no serious conflagration. In spite of this the Fire Department has had an active year, responding to 17 bell and 27 still alarms.

In every instance the response of the Department has been willing and hearty, but trouble has developed through the failure of a number of men to hear the alarm. This is a source of much irritation, because every man takes a certain amount of pride in "getting there" when the alarm rings, and comes in for a certain amount of "joshing" if he fails, as well as being subject to a fine, which is taken out of his pay. The chemical has again saved heavy losses, and its success suggests that we must soon make further progress along the line of motor equipment. The ladder truck is a piece of equipment which is not always wanted, but when necessary is wanted quickly. Lives may depend upon its arrival. The present arrangement is that the ladder truck responds to certain boxes considered to be the most dangerous. In other cases it is sent for if needed. No horses are kept in special readiness for it, so it might happen that the piece would not show up at a dangerous time. Motorizing would not be a very expensive job, but the matter of the alarm is given precedent this year.

New boxes, numbered 112 and 113, have been placed at the Richards Building and the Primary building.

GEORGE E. LEWIS, Chief Engineer.

SAMUEL H. EDES, Asst. Engineer,

VINCENT J. BRENNAN, Asst. Engineer.

SCHOOL WARRANT

STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of Newport, qualified to vote in District affairs.

You are hereby notified to meet in the Town Hall in said Newport on Saturday, the 10th day of March next, at two o'clock in the afternoon to act upon the following subjects:

- Art. 1 To choose a Moderator for the ensuing year.
- Art. 2 To choose a Clerk for the ensuing year.
- Art. 3 To choose a member of the School Board for the ensuing three years.
- Art. 4 To choose a Treasurer for the ensuing year.
- Art. 5 To choose Agents, Auditors, and Committees in relation to any subjects embraced in this Warrant.
- Art. 6 To determine and appoint the salaries of the School Board, District Treasurer, District Clerk, Truant Officer, and Census Officer, and any other officers of the District.
- Art. 7 To hear the reports of the School Board, Treasurer, Auditors, Officers, and Committees heretofore chosen, or appointed, and pass any vote relating thereto.
- Art. 8 To see what sum or sums of money the District will vote to raise and appropriate for the support of schools and for the payment of other statutory obligations for the ensuing year.

- Art. 9 To see what sums of money the District will vote to raise and appropriate for building and repairing schoolhouses and outbuildings, as the needs of the District may require, provide suitable furniture and apparatus and needful conveniences therefor, and pay for the insurance of property of the District from loss by fire and for expenses of administration, including Superintendent's excess salary, and pass any vote relating thereto.
- Art. 10 To see what action the District will take to provide sufficient room for the grades, raise and appropriate money for the same, and pass any vote relating thereto.
- Art. 11 To see what sum of money the District will vote to appropriate, or raise and appropriate, towards paying the salary of the Public Health Nurse, provided said nurse does the work of the School Nurse.
- Art. 12 To see what sum of money the District will vote to raise by taxation, or otherwise, and appropriate for the purpose of defraying the expense of equipping and furnishing the Towle High School Building.
- Article 13 To see what action the District will take in regard to regrading the grounds adjacent to the Richards School Building, raise and appropriate money therefor, and pass any vote relating thereto.
- Art. 14 To transact any other business that may legally come before said meeting.

Given under our hands and seals this 20th day of February, 1923.

SAMUEL H. EDES,
GEORGE E. LEWIS,
SILAS C. NEWELL,

School Board of Newport.

School Report

SUPERINTENDENT'S REPORT

To the School Board of Newport:

I hereby submit my seventh annual report of your schools for your consideration and approval.

The financial part of this report is for the fiscal year from July 1, 1921 to June 30, 1922 inclusive. The rest of the report is for the period from July 1, 1922 to February 1, 1923, and will be called this year in this report.

In some ways, this year has been unsatisfactory. We were very much crowded until the annex to the Richards building was near enough completed to be used for school purposes, or at the beginning of the winter term.

During the fall term, three recitations would some times be going on at once in the same room. Repairs were also being made on the roof, which detracted much from the recitations in alumni hall. The fifth, fourth, second and first grades had to attend school only half a day as there was not room for them all to attend at once. The first and second grades are still obliged to attend in sections and will have to do so until at least three more rooms are available. This arrangement is far from satisfactory but it is the best

we can do with the rooms we have. Parents, pupils and teachers have responded magnanimously. Such an arrangement must discommode many homes. It makes a much longer day for the teacher in these grades. At least one more teacher should be employed in the first grades.

Getting into the Annex made a busy period between the fall and winter term for janitors and superintendent. The janitors did most of the work such as cleaning and putting in furniture.

All concerned are looking forward with much anticipation to the completion of the Towle high school building which will greatly add to the efficiency of all the village schools and to the administration of them.

Several of the accounts have been overdrawn but in most every instance this has been due to the building of the annex. Although some of the accounts will be overdrawn, there will be several with balances so that the total will not be much, if any, overdrawn. Material and labor have advanced while we had planned on them declining when making up the budget a year ago. We have done more repairing than we had anticipated. The Reed schoolhouse has been shingled on the east side. The Primary building has been painted on the inside at a cost of \$330.00. This has sadly needed to be done for two or three years. The building is much lighter and more hygienic. The walls and ceilings were very dingy and dirty.

The slate roof of the Richards building has been partially repaired at an expense of \$535.00. This expense was not anticipated in making up the budget for this year.

Using the Annex has necessitated the purchasing of scholars' and teachers' desks at a cost of \$305.00 and Allen shades and holders at a cost of \$86.00, which was not anticipated and taken care of in the budget.

Smith heaters have been installed in the Guild and Kelleyville schoolhouse, greatly adding to their comfort. These two houses are now as well heated and ventilated as any schoolroom in town.

Chemical toilets have been installed in the Kelleyville schoolhouse. This schoolhouse needs a new hard wood floor. It would then be as good a rural schoolhouse as there is in town. The heat, ventilation and light meet all the state requirements. It is the best lighted schoolroom in town as the light comes from the north which makes a steady, even light all day, the very best light for school work. It is admitted from the left side and rear of the pupils, another very desirable feature. This is also true of the Reed school and largely so of the Northville school.

As a whole, we have been fortunate in choosing our teachers this year. Most of our last year teachers remained with us.

Miss Dorris Smith went to Amesbury, Mass., at a much larger salary. Miss Helen Welch went to another state at an increase in salary. Miss Gertrude Call is teaching in Methuen at an increase in salary. Miss Ruby Ayers is teaching in Avon, Conn., at an increase in salary. These were four of our best teachers. Miss Dorothy Shand is doing substitute work in the schools of Manchester. Miss Thelma Weston is not teaching this year. Miss Florence Paulson is married.

The following teachers were engaged to replace respectively the above named teachers—Misses Helen Fisher, Cecil P. Brown, Helen McCarthy, Ruth Rickard, Jennie J. Howe, Esther Connor, Jeanne A. Andrew. Mr. Shirley Pollard is teaching manual training, history, geometry and music in the eighth grade and high school.

Each year a few teachers leave us to better themselves financially, a very few to marry, and a few fail of re-election for one reason or another. Some of the last make good in other towns having learned much by their mistakes here. It is much easier to make good by starting new in another town than it is to do so in the town where one has partly failed. It is usually a young, inexperienced teacher who fails to get hold of her discipline at the very first who fails. No teacher can do efficient class work without good order in it.

Many of our very best teachers have remained with us this year at a financial sacrifice. They have been offered more salary in other towns. They had signed contracts to teach in Newport and they lived up to them. Hardly a teacher has broken her contract during the seven years I have been connected with your schools.

We appreciate the fact that Newport cannot compete with the cities in teachers' salaries; neither can Newport afford to lose her best teachers if a salary within her resources will retain them. Salary paid a poor teacher is worse than wasted as it does harm instead of good. Newport, however, has responded readily along this line and we have every reason to believe the voters will continue to stand by their schools.

Now and then we hear it said that the schools of today are not as good as they were thirty, fifty, or more years ago. Schools have been similarly criticised for years. We quote a few statements taken from old School Board Reports of various towns with dates of the same. Just see how familiar they look and sound.

SCHOOL BOARD REPORTS, 1849

Plainfield—"It is a most lamentable fact our schools have become so common that they are uncommonly poor."

Marlboro—"The spirit of the schools is worse than for years."

Deering—"Many schools instead of elevating are debasing social and moral character."

Sanbornton—"Arithmetic, grammar, geography, vocal sounds, stops and starts, and cadence are being neglected."

SCHOOL BOARD REPORTS, 1878

Milford—"There is too great a tendency to eliminate the benefit of work from education. Children are being brought

up to doddle with study and to have a contempt for hard work."

Epping—"Our schools are badly managed. A greater part of the money raised and appropriated for school purposes is thrown away."

Belmont—"No subject is so poorly taught as reading."

Tamworth—"A very small portion of the time has been given to the elements. These branches should receive more attention."

NEWSPAPER REPORTS, 1921

Hanover—"Pupils do not know arithmetic."

Concord—"Concord is the place where all the Current fads for the needless spending of the people's money originate."

Portsmouth—"The children are not getting what they should out of the schools. The seventh and eighth grades should be as they were years ago.

Keene—"Pupils from the junior high cannot read, spell or figure easy problems and as for grammar they do not know the parts of speech."

No doubt the children who are attending school today will be telling their children thirty years hence how much better the schools of today were than theirs are.

State Commissioner, Mr. E. W. Butterfield, says, "Our schools are never as good as they used to be. The reason is that each generation is determined to make them better than before.

Mr. Winship, the editor of the Journal of Education, says in one of his articles, "When we say Better Schools we imply no criticism on the schools of yesterday or today, the con-

ditions demand better schools.

Had the medical profession been as intelligent when Washington died as it was when Lincoln died he need not have died as he died when he died. Had surgery been as skillful when Lincoln died as it was when Garfield died he need not have died as he died when he died. Had it been as modern when Garfield died as it was when McKinley died he need not have died as he died when he died; and had it been as skillful when McKinley died as it is today he need not have died as he died when he died.

The education of today must be as far above the education of thirty years ago as a Pierce-Arrow is above an ox-team, as a non-stop flight of 2,000 miles is above Darius Green and his flying machine; as baseball of today is above the Four year Old Cat of my boyhood.

Better schools are as necessary as city water works that have supplanted the cistern; as is the sewer system that has put the cess-pool out of commission."

The writer was graduated from college twenty-one years ago. A person must know today to enter college as much French, mathematics, and history as he did to graduate from college.

Most people comparing the schools of today with those of thirty or fifty years ago forget that then only the picked few attended higher institutions of learning while today the large majority attend. A few of the more brilliant students studied law, medicine, and the ministry while the large majority obtained only a slight education in the, "Three R's." Today the large majority complete the elementary school which is equivalent at least to the first two years work of the high schools twenty years ago.

The schools of tomorrow must be better than the schools of today. As society advances so must the schools keep pace. The schools must be so good that no child will be a community liability whether he comes from the home of the rich or the poor, the immigrant or the native. Every child must

be taught how to learn. He should be taught how to play as well as how to work.

Our state inspectors, including the Commissioner, Mr. Butterfield, who made us a visit about a year ago, say that our high school is one of the best of its size in the state, and that it has made great improvements during the last six years. Most of this is due to the teachers and principal but quite a little is due to the parents, who have made it possible through their generosity to properly equip our schools with apparatus, books and supplies, and to employ efficient teachers. Much of the success of the high school is also due to the thorough work that has been done in the grades.

IMPROVEMENTS NEEDED

We greatly need simple play apparatus on the school playground. If we can have only one, a public playground or play apparatus on the schoolgrounds, we believe the latter to be the more desirable and that it would result in the most good to the greatest number. It could be used all the year round with very little expense for a director as the teachers would direct the play all but three months of the year. At a small expense one or two teachers could be employed for the entire year.

The Primary and Richards buildings need to be painted on the outside. They were painted one coat eight years ago.

The grounds around the Annex need to be graded. A retaining wall should be built on the west side of the grounds. A walk should be built from the Annex to the sidewalk.

The steel flagpole on the Primary grounds needs painting.

The boilers in the Richards building are constantly giving way. They will soon have to be replaced by new ones. Is it better to wait until they actually give out entirely, which will doubtless happen in the dead of winter when schools are in session, or to take them out before?

We need more Allen shades and holders in the Primary and Richards buildings.

SCHOOL NURSE

Miss Myrtle Davis, our school nurse, did excellent work while with us. We were without a nurse for a few weeks. Mrs. Nettie Varney, our present nurse, has been with us only a few weeks. She comes to us highly recommended and we are expecting her to continue the good work begun by Miss Davis. We have had the pleasure of working with her in the Sunapee schools and we are glad to welcome her to the Newport schools. The work of the school nurse adds much to the efficiency of our schools. We hope the district will see its way clear to raise the necessary \$300 for this purpose.

JANITORS

Our two Janitors of the Primary and Richards buildings, Mr. French and Mr. Brown, respectively, are with us again this year. Much of the success of our schools depends upon them as the pupils cannot do their best unless they are physically comfortable.

This winter has been extremely hard for the janitors and they have fully met the situation. The addition of the Annex has added quite a little to the work of them both as Mr. French sweeps the Annex three times a week. Mr. Brown takes care of it the rest of the time. They are obliged to make many long days in the winter time and now and then they are obliged to stay in the school house all night. During the vacation periods, they do nearly all of the minor repair work and make many small improvements.

In closing, I wish to call your attention to the report of Headmaster Wiggin, to all of which I heartily agree.

I wish to thank all who have in any way contributed to the efficiency of our work and the improvement of our schools.

Respectfully submitted,

W. H. S. ELLINGWOOD,
Superintendent of Schools.

STATISTICS OF SCHOOL YEAR 1921-22

Whole number registered	852
Whole number registered who have not attended school elsewhere in the state	811
Boys	413

Number of visits made by superintendent	393
Number of visits made by school board	37
Number of visits made by citizens	436

HIGH SCHOOL REPORT

Mr. W. H. S. Ellingwood, Supt. of Schools:

I herewith submit the annual report of the High School for the past year. The school year ending June 1922 showed a total registration of 141, the total registration for this year, to date, is 147, an increase of 6 or 4%. We have retained in membership at the present time 95% of the pupils, the same percent as last year at this time; 94% of the undergraduates last June returned to school this fall. During the school year, 1921-22, we lost 8% of our pupils; the average for the state was 13%. The record of the school in the above respects continues to be a good one.

During the first part of this school year we were very badly crowded, more so than at any time in recent years. With the opening of the Annex in January the conditions were greatly improved, the sixth, seventh and eighth grades and the high school are now very comfortably housed. Of course conditions will be greatly improved with the opening of the Towle High School which will allow a readjustment of classes and increased efficiency in all of the schools. In view of the fact that it is planned to have the Towle High School ready for occupancy in about a year it would seem that few changes should be made in plans or courses for the coming year until the readjustment has been made.

Last June we graduated a class of twenty three, eleven girls and twelve boys. Nine of these young people have continued their education in other schools and colleges. One of the boys is attending New Hampshire State College, one is enrolled at Boston University, one is attending St. Johns Col-

lege, one at Vermont Academy and one at a business school in Concord. Of the girls, two are attending Keene Normal School, one is registered at Worcester Normal School and one at Leland Powers School. Two of the girls are teaching school, after taking the summer school course at Keene Normal; one boy is in an insurance office in Manchester and the rest are employed in Newport. Mention should also be made of the fact that from the class of 1921 one boy entered Dartmouth College and one girl entered New Hampshire State College this fall.

The record of the school in the matter of advanced school attendance is an excellent one. Last year 35% of all the graduates of all the high schools of the state went on to advanced schools, we sent 38% of our graduates. Each year the state board of education secures the ranks of all pupils who enter advanced school from any New Hampshire high school. These ranks are evaluated and the results published in table form. Last year Newport stood tenth among all the schools of the state.

We have been particularly fortunate in retaining all but one of last years teaching staff. The new member of our force is Mr. Shirley E. Pollard of Newport, a graduate of New Hampshire State College. Keeping the same staff adds greatly to the continuity of the work and the efficiency of the school. Our staff as a whole will compare favorably with that of any school in the state. Newport should plan, as they have in the past, to retain the services of efficient teachers whenever possible and, in case of resignation, replace the teacher with one of equal value. If efficient teachers can be kept in Newport by a slight additional expense the improvement in school work will show a big return for money invested.

Last year the annual Fairbanks Prize Speaking contest was held during Commencement week with a very large attendance. It is probable that the contest will be held at the same time this year. The prizes last year were won by Miss

Mildred Nichols, and Miss Corinne Stearns. The school was represented at the Bi-State Prize Speaking Contest by Miss Arline Aiken of the class of 1922.

The Towle prizes for last year were awarded as follows: best essay on an American History subject, Clifford Eastman of the class of 1922; best school essay, Isadore Budnitz of the class of 1924; best sight translation in French, Chester Barton of the class of 1923.

For the past three years we have required each pupil of the high school to speak before the school three times a year. In addition much practice has been given in oral composition. We are beginning to see the result of this work; pupils are gaining confidence and, for the most part, are able to stand before an audience and present their part in a creditable manner. The change in individuals is very noticeable, many pupils who three years ago could hardly stand before an audience are now able to speak in a pleasing forceful manner.

In athletics the school has had a very successful year. Last spring the baseball team lost only two games and the track team won the field meet of the Connecticut Valley League. Last fall the football team lost only one game, to Concord High. The team won the Connecticut Valley League Championship and defeated Stevens most decisively by a score of 47-2 thus gaining permanent possession of the three year cup presented by the Newport American Legion. This winter we are again running class basket ball teams, both boys and girls; the games are played in Alumni Hall and in the Town Hall.

The townspeople have most loyally supported our Athletics and shown their interest in many ways. Financially the athletic association is in excellent condition, due to careful planning and management and the large attendance at the Stevens game last fall.

I believe that our athletics are being conducted on a high level with fair play as the prominent feature. We are par-

ticularly fortunate to have our boys under the charge of a man of the type of Mr. Daniels, who, by example and teaching, leads the boys along the best lines. I hope that every effort will be made to retain the services of Mr. Daniels for another year.

At the end of this report will be found two tables, one showing the number of pupils in each class taking the different subjects and one showing the attendance data for the past ten years.

I feel that we should have better cooperation from the parents in the matter of attendance and home study. Many parents allow children to remain out of school for a day, or half a day, for slight causes. This interferes with the work of the individual pupils and seriously handicaps the efficiency and morale of the school. If the parents will realize that going to school is the real work of the pupils and that nothing should be allowed to interfere, we shall see a big improvement in the work of each pupil and of the school as a whole. Two hours home study each day is needed by the majority of the pupils and in this matter the school must depend upon the cooperation and help of the parents.

In conclusion I wish to thank the Superintendent, School Board, teachers, janitor and all who have united to make the Newport High School an institution of which we may be proud.

Respectfully submitted,

JOSEPH A. WIGGIN, Headmaster.

AUDITORS' REPORT

February 28th, 1923.

We, the undersigned auditors of the Newport Town School District, hereby certify that we have this day examined the accounts of the Treasurer of said District, and find the same correctly cast and properly vouched.

EUGENE P. PAUL,

JOHN L. DAME,

Auditors.

REPORT OF THE TRUSTEES OF TRUST FUNDS OF THE TOWN OF NEWPORT, N. H., JAN. 31, 1923

To the Citizens of Newport:

The Trust Funds are at the present time all Cemetery Funds and are deposited in the local Savings Banks, with one exception, and are drawing interest at 4 per cent.
